## Individual Professional Development Plan: Activity Log

\*This Activity Log is for the educator's personal journal & reference. It is for your use to record all CEU and college coursework you have completed as you work toward renewal of your current certification. <u>Suggestion:</u> If you hold multiple certificates/licenses, you may find it helpful to use a separate log for each certificate/license you will convert/renew. However, you may choose to use one (1) activity log.
